AMIGO TARPAULIN FLAT COVER FOR THE LADDER RACK AND BINDING RAILS ASSEMBLY INSTRUCTIONS

The tarpaulin flat cover set for the ladder rack and binding rails consists of:

- 1 tarpaulin flat cover for the ladder rack and binding rails
- 18 cord holders - grey
- 18 hammer head nuts M4
- 1 Philips round head screws M4 x 12

First, fit the following parts to the trailer according to the instructions provided:

- Ladder rack
- Side binding rails
- Binding rails on the front or rear wall (fit this to the rear board)

Place the round head screw through the cord holder and fit the hammer head nut on the round head screw.

Place the tarpaulin flat cover over the trailer.

Fit three cord holders in the T-groove on the front and rear boards. On the rear wall, place the cord holders between the lights. On the side wall, place two cord holders in the T-groove in front of the mudguard and two cord holders in the T-groove behind the mudguard between the eyelets in the tarpaulin cover.

Make sure the hammer head nut is rotated 90° in the T-groove.

AMIGO TARPAULIN FLAT COVER FOR THE LADDER RACK AND BINDING RAILS ASSEMBLY INSTRUCTIONS

On both sides, fit a cord holder right next to the front post.

Pull the elastic cord over the cord holders at the front.

Make a loop in the elastic cord at the front of the side wall. Fold the flap at the front over the corner post and insert the loop through the eye of the flap from the inside to the outside.

Pull the loop over the cord holder which is fitted against the front post. Do this on both the left-hand and right-hand sides.

Pull the elastic cord over the other cord holders on the side and at the rear. Make sure the tarpaulin flat cover is pulled tightly over the trailer.

Net weight of the tarpaulin flat cover set for the ladder rack and the binding rails: 4 kg
