## AMIGO SECURING POINTS ASSEMBLY INSTRUCTIONS

The securing points set consists of:

- 4 securing points
- 4 hammer head bolts M8 x 20
- 4 wing nuts M8

Place a hammer head bolt in the T-groove and rotate the hammer head bolt 90° clockwise.

Fit a securing point eye with the flat side touching the floor.

Firmly tighten the wing nut.

You can fit the securing points to all sides of the trailer.  
A securing point can withstand a pulling force of up to 500 N.

Net weight of the securing point set: 0.4 kg
