## AMIGO SIDE BINDING RAILS ASSEMBLY INSTRUCTIONS

The side binding rails set consists of:

- 2 binding rails
- 4 black caps
- 8 railing holders
- 8 bolts M8 x 16
- 8 hammer head nuts M8
- 16 Parker screws

Fit four railing holders on each side of the trailer.

Place the hammer head nut in the T-groove behind the railing holder and fit an M8 x 16 bolt.

Place the binding rails through the railing holders and spread out the railing holders evenly.

1. The distance from the rear of the trailer to the 1<sup>st</sup> railing holder must be 17.5 cm.
2. The distance between the 1<sup>st</sup> and 2<sup>nd</sup> railing holder, between the 2<sup>nd</sup> and 3<sup>rd</sup> railing holder and between the 3<sup>rd</sup> and 4<sup>th</sup> railing holder must be 56 cm.
3. The binding rails must protrude 10 cm from the railing holder at the rear.

Next, use a 13 mm spanner to tighten the M8 bolt.

Do this for every railing holder.

## AMIGO SIDE BINDING RAILS ASSEMBLY INSTRUCTIONS

Use a cordless drill to screw the Parker screws into the wall and the binding rails from the inside of the trailer.  
Do this for every railing holder.

Place the black caps in the front and rear of the binding rails on the left and right-hand sides of the trailer.
