

Amigo

your best friend, everywhere!

HAPERT
WWW.HAPERT.COM

The Amigo

This reliable, unbraked trailer with aluminium walls and a hinged, flat tailboard has an anti-slip loading floor that is 210 cm long and 114 cm wide. It is equipped with the same robust, easy to operate, robust fasteners found in the professional HAPERT trailer line. You no longer have to rely on load hooks under the trailer, because cleverly designed attachment holes in the walls (both inside and out) allow the securing points to be easily attached to the walls wherever you choose.

This makes securing the load child's play. Furthermore, the attachment holes can also be used for options such as a binding rail, a cargo securing net, a flat or high cover or even a hard plastic cover. You can easily install and remove them all yourself.

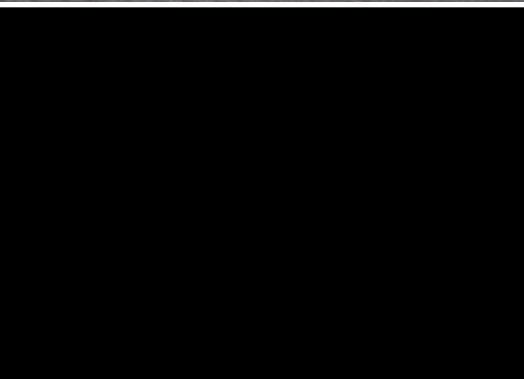

>> *The Amigo, your best friend wherever you go!* <<

A few specifications:

35 cm high aluminium walls.
210 cm long, 114 cm wide.
Max. Gross Weight: 750 kg.

Option packages (please turn over)

Option package Starter

With the Starter package you have all the essential basic options for your Amigo. The jockey wheel makes it easy to connect your trailer, even when it's carrying a full load. Through use of the easily repositioned securing points and matching lashing straps, securing the load is easier than ever. The coupling lock ensures that your best friend doesn't go home with someone else!

- Jockey wheel with support
- Repositionable securing points (set of 4)
- Lashing straps (set of 2)
- Coupling lock

(All optional equipment is also available separately)

Option package Home & Garden

You use the ladder rack and binding rails for the somewhat longer and higher loads. With these options you can secure the load on the outside of the trailer. The supplied cargo securing net ensures that even a light load remains in the trailer while driving. This option package also lends a professional appearance to your trailer. The Amigo, your best friend for gardening and odd jobs.

- Ladder rack
- Binding rails
- Cargo securing net

(All optional equipment is also available separately)

All specifications are subject to change, code 123

Option package Home & Garden XL

The Home & Garden XL package increases the space in the bed by nearly 100%. The 30 cm high aluminium put up walls transform your Amigo into a sturdy bulk transporter. The supplied flat cover ensures that the entire load reaches its destination. The Amigo, your good friend for gardening and odd jobs.

- Aluminium walls (30 cm high)
- Flat cover

(All optional equipment is also available separately)
