HAPERT TRAILERS - SOLID AND RELIABLE

The HAPERT name has been associated with reliable quality for decades... and with good reason! HAPERT stands for high-quality materials and components, for well-conceived designs, and for quality products that prove themselves time and time again under the most diverse conditions. HAPERT- turntable trailers are available in many European countries from professional dealers who have extensive knowledge of the products and personal involvement with the brand and the organisation.

Even the basic versions of all the turntable trailers with box van construction feature two rear doors with stainless steel hinges, locks and fastening materials.

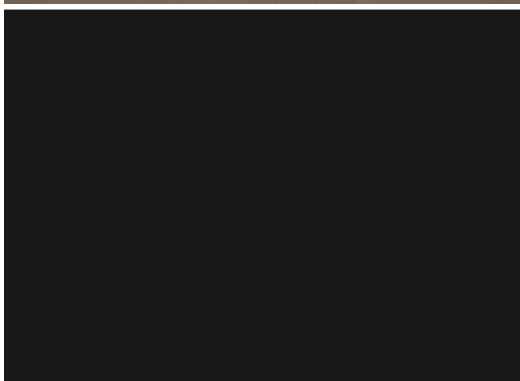

For more information about the many additional accessories and options, please contact your local HAPERT dealer or visit WWW.HAPERT.COM. Naturally the box van turntable trailer is also available with a side door, side flap and/or ramptail with anti-slip coating. You can also opt for an cooling unit, spoiler or bevelled front end.

model V	number of axles	outside dimensions in mm			loading floor height in mm	Maximum Gross weight in kg	approx. empty weight in kg
		length	width	height			
V 3500	3	5050	2000	1800	840	3500	1300
V 3500	3	6050	2200	2100	840	3500	1570
V 3500	3	7050	2400	2300	840	3500	1870

◀ Option: available with various types of windows.

HAPERT TRAILERS - VERSATILE AND PRACTICAL

HAPERT has been the number one brand in the trailer sector for many years now. In the Benelux countries, Hapert is the undisputed market leader in the sector for light trailers with an overrun brake. Users know that HAPERT trailers are all quality products that prove themselves time and time again under the most diverse conditions.

All HAPERT turntable trailers are equipped with a fully welded and hot-dip galvanised chassis. The walls are constructed using either 15 mm thick plywood panels or 25 mm thick polyester panels with an insulating core. The standard floor is made of plywood with an anti-slip upper layer. The dual axle model V is available with a Max. Gross Weight of up to 3500 kg. Available in various sizes with lengths of 4000 to 8000 mm, widths of 1600 to 2400 mm and construction heights of up to 2500 mm.

model V	number of axles	outside dimensions in mm			loading floor height in mm	Maximum Gross weight in kg	approx. empty weight in kg
		length	width	height			
V 2700	2	5050	2000	1800	820	2700	1180
V 3000	2	6050	2200	2100	820	3000	1450
V 3500	2	7050	2400	2300	840	3500	1750
